Biosynthesis and Degradation

Studies on the proteins from the seeds of *Croton tiglium* and of *Jatropha curcas*. Toxic properties and inhibition of protein synthesis *in vitro*.
By F. Stirpe, A. Pession-Brizzi, E. Lorenzoni, P. Strocchi, L. Montanaro & S. Sperti 1

Inhibition of protein synthesis *in vitro* by crotins and ricin. Effect on the steps of peptide chain elongation.
By S. Sperti, L. Montanaro, A. Mattioli, G. Testoni & F. Stirpe 7

Effect of elongation factor 2 and of adenosine diphosphate-ribosylated elongation factor 2 on translocation.
By L. Montanaro, S. Sperti, G. Testoni & A. Mattioli 15

Effect of oestradiol-17β and progesterone on the metabolism of [1,2-^{3}H]progesterone by the rabbit endometrium and myometrium.
By U. Verma & K. R. Laumas 55

Bioenergetics

Phosphorylation state of cytosolic and mitochondrial adenine nucleotides and of pyruvate dehydrogenase in isolated rat liver cells.
By E. A. Siess & O. H. Wieland 91

Subcellular Structures

Lipid composition of lymphocyte plasma membrane from pig mesenteric lymph node.
By G. M. Levis, G. P. Evangelatos & M. J. Crumpton 103

Hydrogen-ion titration studies on erythrocyte membranes.
By C. Hallam & J. M. Wrigglesworth 159

Cellular Interactions and Control Processes

Influence of the adrenal glucocorticoids on the stimulation of synthesis of hepatic ribonucleic acid and plasma acute-phase globulins by leucocytic endogenous mediator.
By W. L. Thompson, F. B. Abeles, F. A. Beall, R. E. Dinterman & R. W. Wannemacher, Jr. 25

PAGE

Calcium uptake by subcellular fractions of pancreatic islets. Effects of nucleotides and theophylline.
By J. Sehlin 63

The effects of denervation on protein turnover of rat skeletal muscle.
By D. F. Goldspink 71

The route of secretion of procollagen. The influence of $\alpha\alpha'$-bipyridyl, colchicine and antimycin A on the secretory process in embryonic-chick tendon and cartilage cells.
By R. Harwood, M. E. Grant & D. S. Jackson 81

Stimulation of prolactin synthesis and of adenosine 3′:5′-cyclic phosphate formation by prostaglandins and thyroliberin in cultured rat pituitary cells.
By K. M. Gautvik & M. Kriz 111

Regulation of carbohydrate metabolism in lymphoid tissue. Nature of the endogenous substrates and their contribution to the respiratory fuel of the sliced rat spleen *in vitro*.
By D. Suter & M. J. Weidemann 119

Nuclear components responsible for the retention of steroid–receptor complexes, especially from the standpoint of the specificity of hormonal responses.
By W. I. P. Mainwaring, E. K. Symes & S. J. Higgins 129

Regulation of mammalian protein synthesis *in vivo*. Protein synthesis in rat liver and kidney after the administration of sublethal doses of cycloheximide.
By L. I. Rothblum, T. M. Devlin & J. J. Ch'ih 151

The biochemistry of fatty liver and kidney syndrome. Biotin-mediated restoration of hepatic gluconeogenesis *in vitro* and its relationship to pyruvate carboxylase activity.
By D. W. Bannister 167

Development

Effects of Pronase and neuraminidase treatment on a myelin-associated glycoprotein in developing brain.
By R. H. Quarles 143

PAGE

Metabolism in Whole Organisms

Quantitative analysis of metabolism of hepatic triglyceride in ethanol-treated rats.
By M. A. Abrams & C. Cooper 33

Mechanism of increased hepatic uptake of unesterified fatty acid from serum of ethanol-treated rats.
By M. A. Abrams & C. Cooper 47

RAPID PAPERS

PAGE

Biosynthesis and Degradation

Compartmentation of albumin and ferritin synthesis in rat liver *in vivo*.
By E. B. Fern & P. J. Garlick 189

Cellular Interactions and Control Processes

Rates of induction of mitochondrial aldehyde dehydrogenase in rat liver.
By A. A. Horton & M. C. Barrett 177

PAGE

The mechanism of the inhibition of the mitochondrial pyruvate transporter by α-cyanocinnamate derivatives.
By A. P. Halestrap 181

The relative importance of muscle protein synthesis and breakdown in the regulation of muscle mass.
By D. J. Millward, P. J. Garlick, D. O. Nnanyelugo & J. C. Waterlow 185

Contents of Volume 156, No. 2

FULL PAPERS

PAGE

Biosynthesis and Degradation

The purification and biological properties of pancreatic big glucagon.
By K. J. O'Connor & N. R. Lazarus 265

Studies on the biosynthesis of pancreatic glucagon in the pigeon (*Columba livia*).
By K. J. O'Connor & N. R. Lazarus 279

Synthesis of bile acid monosulphates by the isolated perfused rat kidney.
By J. A. Summerfield, J. L. Gollan & B. H. Billing 339

Studies on the purification and properties of UDP-galactose–glycoprotein galactosyltransferase from rat liver and serum.
By I. H. Fraser & S. Mookerjea 347

Lipid metabolism and mobilization in the guinea pig during pregnancy.
By C. T. Jones 357

16β-Hydroxylation of dehydroepiandrosterone sulphate by homogenates of human foetal liver.
By K. N. Wynne & A. G. C. Renwick 419

Effects of clofibrate on some microsomal hydroxylations involved in the formation and metabolism of bile acids in rat liver.
By B. Angelin, I. Björkhem & K. Einarsson 445

PAGE

Bacterial catabolism of threonine. Threonine degradation initiated by L-threonine–NAD^+ oxidoreductase.
By S. C. Bell & J. M. Turner 449

Bioenergetics

Synthesis of adenosine triphosphate during release of intravesicular and membrane-bound calcium ions from passively loaded sarcoplasmic reticulum.
By M. G. P. Vale, V. R. Osório e Castro & A. P. Carvalho 239

Effects of triphenylsulphonium ions on mitochondria. Inhibition of adenosine triphosphatase activity.
By R. H. Barrett & M. J. Selwyn 315

Glutamate metabolism and transport in rat brain mitochondria.
By S. C. Dennis, J. M. Land & J. B. Clark 323

The effects of proteolytic digestion by trypsin on the structure and catalytic properties of reduced nicotinamide–adenine dinucleotide dehydrogenase from bovine heart mitochondria.
By C. I. Ragan 367

QUALITY CONTROL MARK

PAGE

Role of ubiquinone in the mitochondrial generation of hydrogen peroxide.
By A. Boveris, E. Cadenas & A. O. M. Stoppani 435

Subcellular Structures

Further characterization of rat liver mitochondrial fractions. Lipid composition and synthesis, and protein profiles.
By J. G. Satav, S. S. Katyare, P. Fatterpaker & A. Sreenivasan 215

Isolation of a Golgi-apparatus-enriched fraction from leukaemic cells.
By A. Warley & G. M. W. Cook 245

Phospholipid composition of the plasma membrane of the green alga, *Hydrodictyon africanum*.
By D. S. Bailey & D. H. Northcote 295

The subcellular localization and properties of the ferrochelatase of etiolated barley.
By H. N. Little & O. T. G. Jones 309

Cellular Interactions and Control Processes

Transport of pyruvate and lactate into human erythrocytes. Evidence for the involvement of the chloride carrier and a chloride-independent carrier.
By A. P. Halestrap 193

The dissociation of exocytosis and respiratory stimulation in leucocytes by ionophores.
By G. Zabucchi & D. Romeo 209

Production of 1,2-diacylglycerol and phosphatidate in human erythrocytes treated with calcium and ionophore A23187.
By D. Allan, R. Watts & R. H. Michell 225

The androgenic regulation of prostate proteins with a high affinity for deoxyribonucleic acid. Evidence for a prostate deoxyribonucleic acid-unwinding protein.
By W. I. P. Mainwaring, P. S. Rennie & J. Keen 253

PAGE

Prevention, by ribosome-bound nascent polyphenylalanine chains, of the functional interaction of T-2 toxin with its receptor site.
By M. Cannon, K. E. Smith & C. J. Carter 289

Effect of pent-4-enoic acid, propionic acid and other short-chain fatty acids on citrulline synthesis in rat liver mitochondria.
By A. M. Glasgow & H. P. Chase 301

Control of rat mammary-gland pyruvate dehydrogenase by insulin and prolactin.
By B. Field & H. G. Coore 333

The regulation of rat liver tryptophan pyrrolase activity by reduced nicotinamide–adenine dinucleotide (phosphate). Experiments with glucose and nicotinamide.
By A. A.-B. Badawy & M. Evans 381

Nuclear binding of progesterone in chick oviduct. Multiple binding sites *in vivo* and transcriptional response.
By T. C. Spelsberg 391

Nuclear binding of progesterone in hen oviduct. Binding to multiple sites *in vitro*.
By G. M. Pikler, R. A. Webster & T. C. Spelsberg 399

Nuclear binding of progesterone in hen oviduct. Role of acidic chromatin proteins in high-affinity binding.
By R. A. Webster, G. M. Pikler & T. C. Spelsberg 409

Equilibrium-dialysis studies of the interaction between cholic acid and 100000*g*-supernatant preparations from the rat liver.
By R. C. Strange, I. A. Nimmo & I. W. Percy-Robb 427

Metabolism in Whole Organisms

Effect of ischaemic limb injury on the rates of metabolism of ketone bodies in starved rats.
By R. N. Barton 233

Studies on the metabolic role of *myo*-inositol. Distribution of radioactive *myo*-inositol in the male rat.
By L. M. Lewin, Y. Y. S. Sulimovici & P. F. Kraicer 375

RAPID PAPERS

PAGE

Biosynthesis and Degradation

The existence of a glyconeogenic pathway in rat skin.
By R. F. Peters & A. M. White 465

Deoxyribonucleoside triphosphate pools in vitamin B-12-deficient *Euglena gracilis*.
By E. F. Carell & G. H. Goetz 473

Subcellular Structures

The development of the intense circular-dichroic signal during granum formation in greening etiolated maize.
By S. Demeter, L. Mustardy, E. Machowicz & R. P. F. Gregory 469

PAGE

Cellular Interactions and Control Processes

Long-term effects of a high glucose concentration on cyclic nucleotide phosphodiesterase activity in mouse pancreatic islets maintained in tissue culture.
By C. Berne & A. Andersson 461

Metabolism in Whole Organisms

Glucose transport as rate-limiting step in the growth of *Escherichia coli* on glucose.
By D. Herbert & H. L. Kornberg 477

Contents of Volume 156, No. 3

FULL PAPERS

PAGE

Biosynthesis and Degradation

The synthesis of polyadenylic acid-containing ribonucleic acid by isolated mitochondria from Ehrlich ascites cells.
By L. Aujame & K. B. Freeman 499

Regulation of phosphatidylcholine synthesis in rat liver endoplasmic reticulum.
By M. Sribney, C. L. Knowles & E. M. Lyman 507

Hydroxylation of lysine and glycosylation of hydroxylysine during collagen biosynthesis in isolated chick-embryo cartilage cells.
By A. Oikarinen, H. Anttinen & K. I. Kivirikko 545

Metabolism of L-[U-^{14}C]valine, L-[U-^{14}C]-leucine, L-[U-^{14}C]histidine and L-[U-^{14}C]-phenylalanine by the isolated perfused lactating guinea-pig mammary gland.
By S. R. Davis & T. B. Mepham 553

A sensitive method for measuring protein turnover based on the measurement of 2-^{3}H-labelled amino acids in protein.
By T. J. Humphrey & D. D. Davies 561

Evidence for the lack of deoxyribonucleic acid dark-repair in *Halobacterium cutirubrum*.
By V. L. Grey & P. S. Fitt 569

PAGE

Glycogen synthesis in the perfused liver of adrenalectomized rats.
By P. D. Whitton & D. A. Hems 585

Fatty acid synthesis in the perfused liver of adrenalectomized rats.
By C. J. Kirk, T. R. Verrinder & D. A. Hems 593

Lipogenesis from ketone bodies in rat brain. Evidence for conversion of acetoacetate into acetyl-coenzyme A in the cytosol.
By M. S. Patel & O. E. Owen 603

Partial isolation and translation *in vitro* of messenger ribonucleic acid for phosphoenolpyruvate carboxykinase (guanosine triphosphate).
By S. M. Tilghman, L. M. Fisher, L. Reshef, F. J. Ballard & R. W. Hanson 619

Enzymic hydrolysis of myelin basic protein and other proteins in central nervous system and lymphoid tissues from normal and demyelinating rats.
By G. F. Buletza, Jr. & M. E. Smith 627

Measurement of protein turnover in rat liver. Analysis of the complex curve for decay of label in a mixture of proteins.
By P. J. Garlick, J. C. Waterlow & R. W. Swick 657

PAGE

Studies on J-chain biosynthesis in tumours producing immunoglobulins in NZB mice.
By H. Kaji 681

Bioenergetics

Energy-conserving reactions in phosphorylating electron-transport particles from *Nitrobacter winogradskyi*. Activation of nitrite oxidation by the electrical component of the proton-motive force.
By J. G. Cobley 481

Reduction of cytochromes by nitrite in electron-transport particles from *Nitrobacter winogradskyi*. Proposal of a mechanism for H^+ translocation.
By J. G. Cobley 493

The calcium conductance of the inner membrane of rat liver mitochondria and the determination of the calcium electrochemical gradient.
By G. M. Heaton & D. G. Nicholls 635

Subcellular Structures

Characterization of calcium-ion-activated adenosine triphosphatase in the plasma membrane of rat mast cells.
By P. H. Cooper & D. R. Stanworth 691

Cellular Interactions and Control Processes

Glucagon-like and insulin-like hormones of the insect neurosecretory system.
By H. S. Tager, J. Markese, K. J. Kramer, R. D. Speirs & C. N. Childs 515

The stimulus–secretion coupling of glucose-induced insulin release. Does glycolysis control calcium transport in the B-cell?
By A. Sener, J. Levy & W. J. Malaisse 521

PAGE

Activity and androgenic control of glycolytic enzymes in the epididymis and epididymal spermatozoa of the rat.
By D. E. Brooks 527

The inhibition *in vivo* of lipoprotein lipase (clearing-factor lipase) activity by Triton WR-1339.
By J. Borensztajn, M. S. Rone & T. J. Kotlar 539

Erythrocyte calcium metabolism. Calcium exchange in normal and sickle-cell-anaemia erythrocytes.
By B. F. Cameron & P. E. Smariga 577

Selective control of the degradation of normal and aberrant proteins in Reuber H35 hepatoma cells.
By S. E. Knowles & F. J. Ballard 609

A sparing effect of increased plasma fatty acids on muscle and liver glycogen content in the exercising rat.
By M. J. Rennie, W. W. Winder & J. O. Holloszy 647

Effect of phenobarbitone on the nucleocytoplasmic transport of ribonucleic acid *in vitro*.
By N. Hazan & R. McCauley 665

Gluconeogenesis in isolated intact lamb liver cells. Effects of glucagon and butyrate.
By M. G. Clark, O. H. Filsell & I. G. Jarrett 671

Effect of haematocrit value and pO_2 on the redox state and metabolism of the perfused liver.
By P. A. Mayes & J. M. Felts 685

Inhibition by botulinum toxin of depolarization-evoked release of [^{14}C]acetylcholine from synaptosomes *in vitro*.
By S. Wonnacott & R. M. Marchbanks 701

Stimulation of peptide elongation by thyroxine.
By W. J. Carter, F. H. Faas & J. O. Wynn 713
